### Environment Variables

In order to provide your Deployment with Environment Variables at Build and Runtime, you may enter them right here, for the Environment of your choice. [Learn more](#)

A new Deployment is required for your changes to take effect.

[Create new](#) [Link Shared Environment Variables](#)

If enabled, you and your team will not be able to read the values after creation. [Learn more](#)

Disabled

Environments

All Environments

Select a custom Preview branch

Key	Value
CLIENT_KEY...	

Note

Describe how you created this environment variable and how it is used

[Add Another](#)

or paste the .env contents above

Automatically expose System Environment Variables

Shared Environment Variables

No Shared Environment Variables are linked to this app.

Shared Environment Variables are set at the Team level and are inherited by this Project.
